"Dividend" High Tech Stock Alert: EMTI

Symbol OTC: EMTI or EMTI.PK
Recent Price \$0.138
Price Prediction: Upward

STRONG BUY

News Flash:

Environmental Technologies (OTC: EMTI.PK), TUCSON, Ariz., June 8, 2004 (PRIMEZONE) -- Environmental Technologies, Inc. (Other OTC:EMTI.PK - News) is pleased to announce that its Board of Directors has voted to declare a dividend as it reorganizes its corporate structure with a view to maximize its growth potential and enhance shareholder value.

Environmental Technologies • OTC: EMTI or EMTI.PK • Recent Price: \$ 0.138

As you may already know, our focus is on profiling winning stocks that could DOUBLE in value!

This week's featured company, Environmental Technologies (TICKER SYMBOL: EMTI or EMTI.PK), has developed a solution for **locating missing children** and finding lost or stolen items such as **laptop computers** or other high-price wireless devices! By solving these major problems, we believe EMTI may soon become a household name and one of the **hottest micro cap stocks of 2004!**

Did you know that over 800 people are kidnapped in North-America EVERY DAY? In addition, thousands of elderly people suffering from dementia or Alzheimer's disease wander off aimlessly without their loved ones' knowledge. And the same applies to children, who often get separated from their parents in crowded malls.

EMTI has developed a new technology that solves all of these problems. **EMTI's products locate missing people and lost objects in an instant.** EMTI's solution for children consists of a tiny device, which can be attached to a child's clothes that will allow the parent to pinpoint the location of that child to within 1,000 sq. ft. anywhere in the world at any time. If a parent and child get accidentally separated, the parent can immediately determine, from a pocket-held unit or medallion, the direction in which the child has wandered off, and the distance to the child.

The market for EMTI's product finder is even bigger!

An estimated 1,600 laptop computers are stolen EVERY DAY in the U.S. alone, and 97% of them are NEVER recovered. EMTI's **Computer Guard** automatically shuts down a stolen laptop computer making it inaccessible. And, EMTI's Gadget Hunter helps owners track ANY valuable lost devices including PDAs, cell phones or digital cameras!

THE MARKET POTENTIAL FOR EMTI'S PRODUCTS IS MEASURED IN \$\$\$BILLIONS! For more info check out their website at: www.emtigroup.com

OPPORTUNITY: EMTI has already built prototypes of its products. It also selected a manufacturer and signed agreements with marketing and distribution agents. HOWEVER, these products have not yet been launched, which means that EMTI's profit & loss statement doesn't yet reflect this new and lucrative business!

Traditional analysts typically focus on companies' PAST PERFORMANCE. In EMTI's case, the value is in the **FUTURE POTENTIAL**, and this is the #1 reason it is our this week's featured company.

In addition, EMTI is still trading over-the-counter. This means that the traditional investment community doesn't follow it, and most major brokerage firms and institutional investors can't yet invest in it. This is GREAT NEWS for our readers, because **they can invest in EMTI before mainstream investors start paying attention!**

Environmental Technologies, Inc. Declares Dividend

TUCSON, Ariz., June 8, 2004 (PRIMEZONE) -- Environmental Technologies, Inc. (Other OTC:EMTI.PK - News) is pleased to announce that its Board of Directors has voted to declare a dividend as it reorganizes its corporate structure with a view to maximize its growth potential and enhance shareholder value.

With the original basis of the Company being environmentally related technologies, and in view of the response to unrelated security products such as the Computer Guard, Kinder Finder, Elder Finder and Elder Guard, the Board of Directors has determined that these products are best marketed under a separate entity. This will allow the holding company -- Environmental Technologies, Inc. -- to concentrate on environmental projects, while the continued development and commercialization of cutting-edge security technologies and products will proceed in a separate entity whose name more accurately reflects its business and its mission ... Fingerguard Technologies, Inc. **see more at Emtigroup.com**
